

ESSENTIAL RULES OF SAFETY

Customer Rules

Always obey customer's cardinal, golden or life-saving rules.

Personal Protective Equipment (PPE)

Wear appropriate PPE for the hazard or task at hand.

Fitness For Work

Do not work while fatigued or under the influence of alcohol, drugs/ prescription medication which may impair your ability to work safely.

Safe Driving

Do not use a wireless communication device while operating a motor vehicle.

Suspended Loads

Do not walk under a suspended load.

Working at Heights

Always protect against a fall when working from heights greater than 1.8 meters (6 feet) or as otherwise specified by the customer or jurisdictional requirements.

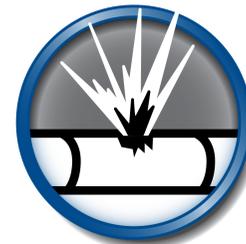

Hazardous Energy Isolation

Verify that hazardous energy has been isolated and tagged (locked out/ tagged out) before performing work or maintenance.

Permits

Do not enter a confined space or immediately dangerous to life or health (IDLH) atmosphere without a permit being properly completed and all hazards controlled.

Manufacturer's Specifications

Always operate pressurized equipment within design and manufacturers specifications (e.g. using pressurized hoses that are not properly rated for the working pressure).

Mechanically Mounted Anti-Withdrawal Devices

Always use mechanically mounted anti-withdrawal devices when working with high pressure water blasting tools.
