Coating Application Methods

- Conventional
- Airless Spray
- Plural Pump Application
- All Methods are Portable Options

Services

- Internal & External Pipe Coatings
- Internal & External Vessel Coatings & Repair
- Structural Sandblasting & Coatings
- Corrosion Protection for Drilling & Completions of Casing Bowls (Production Bowls)
- Refurbish Fleet Equipment – Trucks (incl. Vacs & Semi-Vacs), Trailers, Vehicle Decks (Welding/Flat Decks)
- Apply Raptor Liner (Bed Liner) to Vehicles & Equipment for Longevity
- Perform Failure Analysis of Coatings
- Perform Inspections of Coatings to Determine Repairs
- Holiday Testing (High & Low Voltage)
- Dry Film Thickness Checks
- Soluble Salts
- Testex Strips
- Dew Point Meter Measurements
- 2400 sq. ft. Heated Shop for Coating Applications
- Collaborate with Vendors to Identify the Ideal Coating Systems based on Supplied Serviced Conditions
- Safe Removal of Old Fireproofing & Re-application
- Gas & Electric Mixers to Accommodate Inside or Outside Environments

Specializing in
industrial maintenance,
turnaround and
environmental services.

In a complex and ever-changing world, we're the ones who get it done. CEDA is where resourcefulness meets inventiveness, where experience meets innovation and where challenges inspire world-class solutions. With over 50 years of hands-on experience, our skilled workforce takes on the toughest industrial projects with determination, ingenuity and a results-driven approach—always with safety at the forefront.

We help industries thrive by delivering reliable industrial and environmental services that maximize production, mitigate risk and prevent costly outages. Powered by cutting-edge technologies, CEDA provides more than 120 specialized services and cost-effective solutions across North America, creating exceptional value for our clients.
